Epidemic

Slayer

Breeding fast in poverty
Infectious driving dormant seed
Inside your carcass start to mate
Left in charge to dominateWaiting to unfold
Raging uncontrolled
Adapt a potency
Death machine, infest my corpse to beUnyielding kings of agony
Test your body chemistry
Pulmonary overthrow
Possession of your inner throneInvasions quickly override
Malicious domineering strike
Floods your veins, commit slow death
Deteriorate your makers metPerpetual demise
On a fast decline
Killing tendency
Epidemic, permanent diseaseIncapacitate, fall into your fate
Pain results in screams
Bleed internally
Years will pass before it can be cured
