

# Tough

## Peasant

I wanted lace, I wanted pearls  
To be a princess like the other girls  
But life came hard to my front door  
And I grew up tryin' to even up the score

Tough; I ain't never been nothin' but tough  
All my edges have always been rough  
But Jesus loves me anyway; oh, back off  
There ain't nothin' wrong with a woman who got a little backbone  
Just wait till you taste her kind of love

You want a shy little thing  
A pretty little high-heeled thing  
You're gonna cry if I don't polish up  
Tough

The way I see it, the hand of Fate  
With the parts he dealt my way  
Found out fast life is a game  
You're out real quick if you don't know how to play

Tough; I ain't never been nothin' but tough  
All my edges have always been rough  
But Jesus loves me anyway; oh, back off  
There ain't nothin' wrong with a woman that got a little backbone  
Just wait till you taste her kind of love

You want a shy little thing  
A pretty little high-heeled thing  
You're gonna cry if I don't polish up

I'll be serious, you ain't fooled me much  
You're still hangin' 'round so you can try your luck

With tough; I ain't never been nothin' but tough  
All my edges have always been rough

You want a shy little thing  
A pretty little high-heeled thing

You're gonna cry if I don't polish up

You know what I gotta say about that is tough
