

In Spite Of

Saybia

I aint as beautiful as you
I aint as beautiful as you
In spite of the fact
That I aint noticed in a crowd I know it aint all bad
I know that aint all bad
If I look the right direction In my mind
In the castle where I am the king
I will build up my arms
Until I cross my borders to conquer the world
On my one way crusade I aint as clever as I seem
I aint as clever as I seem
In spite of the fact
That I am learning every day I know that aint all bad
I know, it aint all bad
If I look the right direction
Oh, direction In my mind
In the castle where I am the king
I will build up my arms
Until I cross my borders to conquer the world
On my one way crusade Oh, anybody there
I say I aint as beautiful as you
I aint as beautiful as you
But I may return though
To see the beauty of it all I know that aint all bad
I know it aint all bad
If I look in the right direction In my mind
In the castle where I am the king
I will build up my arms
Until I cross my borders to conquer the world
On my one way crusade, I said I say
Oh, I say
I say, I say Things aint always bad
