

I Love Her featuring Jim Jones

Marques Houston

I love her
But I love you

(i know how you feel, crucial decisions to make)

Part 1

Don't know if i want Keisha, Felisha or anyone
There's something about each one of them,
which make all of them special
Been all around the world
with so many girls
with different qualities
everyone seem to have something i want

Chorus

ooh i need that one
couple days later
I promise she's the one
things come true
tell whats this grown man to do
i gotta have her, but i want you too

I love her
I love you
but i love her and her too
they all could be the one
so find me only one one one one
(2x)

Part 2

I love her, but baby i love you
going out my money they aint nothing really i can do
get me did
if only she can dress like you
if you can walk the way she does ohohh

(chorus)

ooohh i need that one
couple days later
i promise she's that one
things come true
tell whats this grown man to do
i gotta have her, but i want you too

Jim Jones

i i i gotta have her but i want her too
i gotta have her but i want her too
so now i need help with my obsession
im workin on my addiction
im stoppin for all the pretty girls in the cars i be whippin
and my positions
i ballen like the pistons
im on fire i stop, drop and i roll
i watch em get it
they see im on it like the vampires been in my scoop
i hit em, i dip em, turn em into honey dippers
the money getters is what the ladies be callin us
actin like they ignoring us
and really they be on all of us
and all of us
we can take a flight
you you you and her
we can make it bright

Chorus

I love her
i love you
but i love her and her too
they all could be the one
but theres only one one one
