

Don't You Fall

The Be Good Tanyas

Don't you fall in love with me
Don't show me your affection
I can't give you what you want from me
I don't want the attention I gave away my heart before
And it only caused me sorrow
How could I think of loving someone
Today or tomorrow I've been so long confused
Was I loved or was I used? Now the sun goes up and down
And the weather rains and shines
I lost my heart somewhere
Oh, I need to take more time
