Victim Of The Crime

Phoenix

Come, come, dropping off the radar
Come, come, dropping off the radar
Lost illusions try the best that you can do
You might get another chance
I burn my leather coat
I need to change my suit
You don't listen to a single word I say
Lies plus hidden codes equals what they do
And you're the victim of the crime
Come, come, dropping off the radar
Come, come, dropping off the radar
Getting ready for the basic thing to do
They told me not to cross the line
I've lost the evidence I'm running out of clues
Of that much have would've sacrificed
Lies plus hidden codes equals what they do
And you're the victim of the crime

Come, come, dropping off the radar
Come, come, dropping off the radar
Lately I'm not expecting you
Please forgive me
For stuff I didn't do
I sure was gonna
Come, come, dropping off the radar
Come, come, dropping off the radar
They're too many fingers on the trigger
Guess how to play this game
Before you lose it
There's nothing I can do about it
You're starting to fall
Fall in a deeper state
Watch out
