

# Ectopic Eye

## Haemorrhage

Embryonic lesions deformed my face  
Eye-socket is empty but my vision remains  
Repulsive images I can see with it  
Pathological scenes from an internal trip Where is my eye?  
My ectopic eye?  
Where is my eye?  
My ectopic eye? Distorted colors of my anatomy  
Could it be occulted into a cavity?  
Excrete and seeeeeeee!!!
