## Children 18:3

You've got to run  
You've got to go to the police  
It's okay, you'll be fine  
I think this is what's best for you  
It's gonna turn out right I've got to go  
I've got to figure this out  
You're really not at fault  
You should go and clear your name  
Work it out Last chance Marie, last chance Marie  
You want to run, it'll be okay  
Last chance Marie, oh  
I've got to run but you can't give up now So who are you?  
Do you know what you want?  
What does all this mean?  
I know you have a yesterday  
But tomorrow is unseen You got a choice  
Do you know what you want?  
When nothing else is clear  
To go on now is optional  
And how [Incomprehensible] Last chance Marie, last chance Marie  
Calm down, it'll be okay  
Last chance Marie, oh  
I've got to run but you can't give up now, girl They're coming, they're coming  
You know you can't run with the death squad shooting  
They're coming, they're coming  
The pit bulls smiling and the squad cars screaming They're coming, they're coming  
You know you can't run with the death squad shooting  
They're coming, they're coming  
The pit bulls smiling and the squad cars screaming Last chance Marie, last chance Marie  
You want to run, it'll be okay  
Last chance Marie, oh  
I've got to run but you can't give up now, let's go, oh
