

# Thirsty Bitch

## Johnny Rain

What's up, baby?  
Am I the reason you been up lately?  
Sitting tight in a plush 'cedes  
Am I the reason all the sluts hate me?  
What's up, bitch?  
Am I the reason why you suck dicks?  
For a couple red rum sips  
Or maybe why you wanna fuck this? I can hear you calling in the air tonight  
Look me in my eyes  
Look me in my eyes Fall in love, fall in love  
Right now, right now  
Fall in love, fall in love  
Right now, right now Fuck me right now  
Fuck me right now  
Fuck me right now  
Fuck me right now  
Fuck me  
Do me, baby  
Fuck me  
Do me, baby  
Fuck me  
Do me, baby  
Fuck me  
Just like that I understand  
I'll lend a hand  
To pull you up  
To fill your cup  
Let the water fall  
Beneath you  
You need to Fall in love, fall in love  
Right now, right now  
Fall in love, fall in love  
Right now, right now Fuck me right now  
Fuck me right now  
Fuck me right now  
Fuck me right now  
Fuck me  
Do me, baby  
Fuck me

Do me, baby  
Fuck me  
Do me, baby  
Fuck me  
Just like Oh, you ratchet?  
You tryna go gogo gadget?  
Now you on the mattress  
And I'm on the axis  
And it's so Jurassic  
And there's no attachment  
No love  
How I'm gone say no to that shit?  
No glove  
How I'm gone just go with that bitch?  
Well, no to that shit  
Girl, I got the ball like Kobe passed it  
All the bad bitches might go for that shit  
How the bitch gonna say no to that shit?  
She saying that I'm so drastic  
I'm saying that she over-plastic  
Thinking you a hoe for that shit  
Screaming you a hoe for that shit  
You really wanna get thrown in that shit?  
Get high 'cause she feels so low for that shit?  
We need big dope for that shit  
You ever sniff coke for that shit? Look in the eyes of temptation  
Two years I've been waiting  
Two years you've been vacant  
Two years I've been patient  
Mary all in your fragrance  
Tell the bitch to quit hating  
Tell the bitch we been dating  
Lovely hallucination  
Got three beauty marks on your neck  
Passion all in your sweat  
Fantasies of your ex  
Blowing up in your texts  
I swear your history is my stress  
Damn, who's 'bout to come next?  
Hair all in a mess  
Damn, who about to cum next? We're alive tonight  
Be the fear in your eyes tonight  
Bring your love in, tonight  
Bring your love in, tonight  
Bring your love in, tonight

Tonight  
Bring your love in, tonight  
Bring your love in, tonight  
Bring your love in, tonight  
TonightLove me right now  
    Love me right now  
    Love me right now  
Love me right nowLove me right now  
    Love me right now  
    Love me right now  
    Love me right now
