

Just Get Going

No Justice

I don't want to talk about why this ain't working
Go around where we've already been
Run through the list of all of your reasons
You can save that drama for your friends I don't wanna be let down easy
If all your gonna do is bring me down
Come on baby just break my heart right now
If you're gone, If you're gone,
Just get going It's not a complicated situation
There ain't no need to over analyze
Spare me the graphic explanation
Cause baby it's too late and I'm just too damn tired And I don't wanna be let down easy
If all your gonna do is bring me down
Come on baby; just break my heart right now
If you're gone, If you're gone,
Just get going
