Slow Down

Ozzy Osbourne

I'll never bother keeping up with you
Burning the candle at both ends it's true
You know the writing's on the wall
Why do you ride to take a fall?
(Slow down)
You're moving way too fast
(Slow down)
You know you'll never last
(Slow down)
Your haste is making waste
(Slow down)
And join the human race, yea
I tried to tell you time and time again
You know you'll have to pay the consequence
Now you're obsessed with such a pace
But slow and steady wins the race
(Slow down)
You're moving way too fast
(Slow down)
You know you'll never last
(Slow down)
Your haste is making waste
(Slow down)
And join the human race, yea
You seem to run around and round in vain
People are saying that you've gone insane
Tell me just what you're running from
One day you're here and the next you're gone
(Slow down)
You're moving way too fast
(Slow down)
You know you'll never last
(Slow down)
Your haste is making waste
(Slow down)
And join the human race
Race, race, race
Race, race, race
