

Be Free

Radio Killer

B E P, I know you feel it, huh

Oh, my goodness, I know you feel the vibration

Across the globe no matter your location

Ain't no difficulty or complication

Just as long my niggas in the celebration

Celebrated the musical liberation

The Peas then demonstrated the demonstration

And you will feel the flush of relaxation

I'ma wax these and then get heavy rotation

I got you in bliss and ain't no aggravation

When you bump us, we bring the stimulation

So hurry up and get your daily fixation

But make sure that it's handled, it's a moderation

One dose should bring you to a limitation

So put your back into it, baby that's right, huh

I'm about to plug in some dedication

This goes out to my brothers and my coalition

All I want is to be free

You keep pushin' up on me

All I want is to be free

You be you let I'll be me

Let me do what I feel inside

Won't get taken for a ride

Do just what I feel inside

Everything will be alright

Oh, my goodness, it's obvious now you feelin' me

Envious niggas plan on killin' me

Frontin' on my niggas and also my family

Fienin' for my capability, it's tragedy

My technicalities die hard like battery

Try to cross us, I blush 'cause you flatter me

You oughta be on somethin' like PCP

All I want is to be free
You keep pushin' up on me
All I want is to be free
You be you let I'll be me
Let me do what I feel inside
Won't get taken for a ride
Do just what I feel inside
Everything will be alright
Everything will be alright
Everything will be alright
Everything will be alright
Everything will be alright

Gather up the team, now we ready to go
Any minute we'll be all over your box and video
Niggas wanna stop me and my amigos
But we still roll all over your accapella goes
Leave it or this one here like meteor
Your mediocre scene, you feel the roar
Vibration that's headed for your store
For a change, not braggin' about close to more
Instead brain fusion, I lace you up confusion
Relax and feel the groove it's the solution
We straight cruisin' while the beat is still cruisin'
You're here so clap your hand to what we're doin'

All I want is to be free
You keep pushin' up on me
All I want is to be free
You be you let I'll be me
Let me do what I feel inside
Won't get taken for a ride
Do just what I feel inside
Everything will be alright
Whip it good
