## My Hands

## **David Archuleta**

Accidentally, on purpose

I dropped my watch behind the tire

Threw my alarm clock inside the fireplace, yeahAnd I put the parental control on

On the news and the weather channel

I'm outside in my robe, I'm looking for you, ohIf every thing'd stop, I'd listen for your heart

To lead me right to you, yeah

I tried every way I canBut it's harder to hold on to your hands

Than the hands of time, I need a hand, girl

I'm trying to hold on, losing strength

In these hands of mine, I need you hereI'm trying to hold on, standing here

Open hands and I know I can't do this alone

Hold on, oh, hold on, lemme hold on

(To my hands)Hold on to my hands

(Don't let go of my hands)

Don't let goI don't think this is working

Freezing so hard, my hands are hurting

Ought to let go in the first placeAnd I put the phone on the front lawn

Everything that shows time is gone

I'm outside in this cold still looking for youIf every thing'd stop, I'd listen for your heart

To lead me right to you, yeah

I tried every way I canBut it's harder to hold on to your hands

Than the hands of time, I need a hand, girl

I'm trying to hold on, losing strength

In these hands of mine, I need you hereI'm trying to hold on, standing here

Open hands and I know I can't do this alone

Hold on, oh hold on, baby hold on

(Hold on to my, my hands, yeah)

(Don't let go of my hands)Don't ever let me go

(Hold on to my, my hands, yeah)

(Don't let go of my hands) If every thing'd stop, I'd listen for your heart

To lead me right to you, yeah

I tried every way I can But it's harder to hold on to your hands

Than the hands of time, I need a hand, girl

I'm trying to hold on, losing strength

In these hands of mine, I need you hereI'm trying to hold on, standing here

Open hands and I know I can't do this alone

Hold on, hold on, baby, hold on

(Hold on to my hands) Can you hold on to my hands?

(Don't let go of my hands)

Don't let go
(Hold on to my hands)Can you hold on to my hands?
(Don't let go of my hands)
Baby, hold on
(Hold on my hands)
