Love Online

Guy

Welcome
You've got mailLove Online, do or die, time to see, Email me
Saturday night, you and II'm feeling you but you're not standing in front of me
How did we make this connection through my computer screen?
But I feel as if I know you well
And it's real, know how I can tell?The power of your words hit me, now you got me started
Got my mind baby, right where you want it
Now, all I wanna do is be right next to you
So I can and you can, I can't believe I foundLove Online, do or die, time to see, Email me
Saturday night, you and I
Love Online, do or die, time to see, Email me
Saturday night, you and II wanna make you a part of me so, let's bridge
The Internet be all that we can
Because we're like two birds of a feather
So far apart yet come togetherI wanna do the things we say on our Instant Messenger
Make you real instead, like you'll expect it is
The moment that we started this, got inside me like a virus
But destroyed the fear inside us so baby, now it's allLove Online, do or die, time to see, Email me
Saturday night, you and I
Love Online, do or die, time to see, Email me
Saturday night, you and IYou've got mailI've been waiting, inside debating, anticipating
How you'll take me, on this day, all the things I say
When the moment comes, when we meet face to face
The moment of truth for me and you, will your feelings change?No computer to hide behind
Tonight we're gonna find
If you're what you describe
Will this be love online?Love Online, do or die, time to see, Email me
Saturday night, you and I
Love Online, do or die, time to see, Email me
Saturday night, you and ILove Online, do or die, time to see, Email me
Saturday night, you and I
Love Online, do or die, time to see, Email me
Saturday night, you and ILove Online, do or die, time to see, Email me
Goodbye
