

Here She Comes

Joe

Sorry baby, didn't mean to do this to you
Didn't mean to do this to you
Sorry baby, didn't mean to do this to you
Didn't mean to do this to you After a long night of lusting
Shorty came home while I was crushing
I'm about to get busted
I'm rushing It's about to unfold
And I'm about to get thrown in the cold
'Cause she be on some left-eye shit
Might set my house on fire-take a brick to my whip
Oh no, I wanna hit it some more
But I think I heard my girl put her keys in the door Can I hide under the bed
(You can't go there)
In the closet
(You can't go there)
On the balcony
(But you can't, she'll look)
There's a hide-away behind the bush Oh no, here she comes
Shorty bounce my girl is on her way upstairs
I know, here she comes
You need to get your shit and get up out of here Oh no, here she comes
You're about to get a man straight caught out there
Oh no, here she comes
Oh no I know she's gonna trip
If she finds you here messing with her man
Better disappear, think I got a plan
Get you outta here
You should jump out the window I gotta come up with an excuse
The reason why I got a girl up in this room
She won't believe me, though
'Cause we been through the same situation before Can I hide under the bed
(You can't go there)
In the closet
(You can't go there)
On the balcony
(But you can't, she'll look)
There's a hide-away behind the bush Oh no, here she comes
Shorty bounce my girl is on her way upstairs
I know here she comes

You need to get your shit and get up out of here Oh no, here she comes
You're about to get a man straight caught out there
Oh no, here she comes
Oh no Oh here she comes
Watch out now, [Incomprehensible]
Oh here she comes
Watch out now, [Incomprehensible] Oh here she comes
Watch out now, [Incomprehensible]
Oh here she comes
Watch out now, [Incomprehensible] Oh no, here she comes
Shorty bounce my girl is on her way upstairs
I know, here she comes
You need to get your shit and get up out of here Oh no, here she comes
You're about to get a man straight caught out there
Oh no, here she comes
Oh no Oh no, here she comes
Shorty bounce my girl is on her way upstairs
I know, here she comes
You need to get your shit and get up out of here Oh no, here she comes
You're about to get a man straight caught out there
Oh no, here she comes
Oh no
