

Highway Song

Blackfoot

Well, another day, another dollar, after I've sang and hollered
Oh, it's my way of living and I can't change a thing
Another town is drawing near oh, baby, I wish you were here
The only way I can see you, darlin', is in my dreams It's a highway song, you sing it on and on, on and on Well,
the hurt you leave behind, it's the hurt that's on your mind
Oh, and last night's show took its toll on me
Well the city lights fly by me, as I lay my body in my bed
Oh, and dreams of you dance through my head It's a highway song, you sing it on and on, on and on
Highway song is as lonely as the road I'm on It's those big wheels that are ready to roll, we've been flyin' high
and so low
Lord, and all this madness, ain't as crazy as it seems
Everywhere, they stop and stare, I'm just a stranger on this road
Oh, I stand alone, only in my dream Highway song, you sing it on and on, on and on
Highway song is as lonely as the road I'm on Highway song, you sing it on and on, on and on
Highway song is as lonely as the road I'm on, oh oh
