A New Sky

The Presets

Over and outside and under
Dark doves will fly
Over a new sky I'll wonder
Oh who you areI'm on my way, getting pulled to the light
Baby don't know, baby don't see you
Baby won't fear tonight
Clearing my eyes, 'cause it's so hard to see
If a girl were to come up way with meAnd it's alright, it won't be long
You feeling something
So won't you come outside with me?
And it's alright, sing like a song
And now you're flying
So won't you come and fly with me?Over and outside and under
Dark doves will fly
Over a new sky I'll wonder
Oh who you areWe spread our fins
And we take to the seas
Looking for, wishing for
Somewhere new to breed
Hands in the air going out of their minds
In control, but they won't take you aliveAnd it's alright, it won't be long
You feeling something
So won't you come outside with me?
And it's alright, sing like a song
And now you're flying
So won't you come and fly with me?
