

# Electric Chair

## Bleached

Just got out of an electric chair  
Just got out of an electric chair  
Just got out of an electric chair  
And I don't see you anywhere  
No I don't see you anywhere  
No I don't see you anywhereJust got out of an electric chair  
Just got out of an electric chair  
Just got out of an electric chair  
And I don't see you anywhere  
So I don't see you anywhere  
No I don't see you anywhere  
Just got out of an electric chair  
Just got out  
Just got out
