

Metal Is Forever

Primal Fear

Metal is forever, forever, forever
Free choices always had the chance
To play the music you like true and faithful
You support this sound and rhythm
You back up its future from deep in your heart
Faster beats are pounding
While the fans are shouting
Metal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come together
Excited, when you go to see a show
Your feelings arise
Committed, you became a fan forever
Knowing the words you sing all the tunes
Faster beats are pounding
Glowing tubes high sounding
Metal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come together
Faster beats are pounding
Screaming voices howling
Metal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come together
Metal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come together
