

# Top Floor (Produced By Pop Wansel)

Wiz Khalifa

Started out slow, slow,  
Cause no matter how much she gets she wants more  
Girl now we on the top floor, top floor  
Holding on tight, you and I go  
Can you feel it in?  
Can you feel it in?  
Feel it?Uh, first class help you in the game like a free throw  
Fill my bank up with cash my glass with Cliqout,  
You ain't gotta tell your friends  
What we talk about or the places we go, we go  
You're mine for the night, your man tryin' to repo  
Work nights never sleep so you think she got no job  
Go to school during the week on a week and we go hard  
Live so large, let you tear down the mall like it's your card  
It's no problem, go 'head and sing it girl, this is your song  
Started out out slow, slow,  
Cause no matter how much she gets she wants more  
Girl now we on the top floor, top floor  
Holding on tight, you and I go  
Can you feel it in?  
Can you feel it in?  
Feel it?Oh nothing you can tell us thinking jealous when we show up (show up)  
Make you feel like a little girl again,  
But fuck you like a grown up (grown up)  
High as you can be it's like the dream you never woke from (woke from)  
My life's like a movie, get ready for your close up (close up)  
Pour bottles and toast up, your man in your phone  
Trying to see what your plans is  
So what, you still turn up my songs soon as they playing it  
Know what the sayin' is money talks and you ain't saying shit  
I'm a call you soon as I land  
Probably roll some weed ride up on the beach while you tan  
Party every week and you hardly would speak  
But now you got my phone taking pictures  
Laughing smoking chilling yeah  
Started out out slow, slow,  
Cause no matter how much she gets she wants more  
Girl now we on the top floor, top floor  
Holding on tight, you and I go  
Can you feel it in?  
Can you feel it in?

Feel it? We don't hear 'em when they talk  
Probably cause we're in the sky (sky) sky (sky) sky (sky) sky (sky)  
When we leave we take off and I tell her hold on  
'Cause she said she never been this high  
We don't hear 'em when they talk  
Probably cause we're in the sky (sky) sky (sky) sky (sky) sky (sky)  
When we leave we take off and I tell her hold on  
'Cause she said she never been this high.
