

# One Floor Down

## King Creosote

Release me slowly  
Don't leave me cold  
This sadness only  
Appears after dark You tear from me a hello  
Enlighten me in the ways of the world  
You know that I live only one floor down  
You know that I live in a bubble of my own You tear from me a hello-o  
Enlighten me in the ways of the world  
You know that I live only one floor down  
You know that I live in a bubble of my own
