

No Good Without You

Tyrone Wells

Talking all night while the radio
Plays songs we love were dancing slow
It's good to be with you
Then two years later you were running late
But I knew you were worth the wait
So I held out to see you Day turned to night I was still alright
Cause I knew you'd be callin'
Days turned to weeks love was springing leaks
Like rain it was fallin' Chorus:
Cause baby it's no, no good without you
Everythings wrong since youve gone away
I try to follow my dreams
But they're all about you
So where can I go
When honey I know
That it's no good without you
I said hey hey hey hey baby Saturday night I'm alone again
I'm losing my mind caving in, cause baby I miss you
Every thought every where I go
Every song on the stereo, is reminding me of you
I played my guitar and I told the stars, that your love was amazin' x3
But I've got to move on cause your love is gone
And there's no sense in waitin' Cause baby it's no, no good without you
Everythings wrong since you've gone away
I try to follow my dreams
But they're all about you
So where can I go
When honey I know Everything fades from you, all I see is you
I'm barley breathing, always daydreaming, all I see is you
What I need is you
Cause baby it's no, no good without you
Everythings wrong since youve gone away
I try to follow my dreams
But they're all about you
So where can I go
When honey I know I said hey hey hye hey baby
