## Fat Nick

[Hook x2]

All that smokin' kill now

I drink syrup, I pop purple, I can't stand still

All these diamonds on me dancin', [?]

20K for a show, we in the pit for real

[Verse 1]

I just bought my bitch a [?]

My rari too, too, too, too, fast, bitch I might fuckin' crash

Extra dick on the dash, these perkies make me spazz

9-11, Panamera pedal smash

Ocean'd out my mouth, watch them waves blink

My wrist got too much ice, I think I flowed a brick

No mask on, bitch we still be holdin' sticks

Boy you ain't no bro, hell no, we cannot clique

Diamonds, waves, take your ass that way

Pistol loaded, we gon' ride then blow it

Hunneds comin', we ain't scared to throw it

Open up the pit, and watch them bodies hurtin'

Diamonds, waves, take your ass that way

Pistol loaded, we gon' ride then blow it

Hunneds comin', we ain't scared to throw it

Open up the pit, and watch them bodies hurtin'

[Hook x2]

All that smokin' kill now

I drink syrup, I pop purple, I can't stand still

All these diamonds on me dancin', [?]

20K for a show, we in the pit for real
