

Sitting On Top of the World

The Toasters

Some people count success in money and pearls
Some people spend it on fast cars and girls
For me it's sitting, sitting on top of the world
I've got a little bit of time
Come and help me waste it somehowMy girl is happy, she got a 9-5
Come on sister that's more dead than alive
And me I'm sitting, sitting on top of the world
I've got a little bit of money
Come and help me spend it somehowPay now and later you will be fine
That's what the good books say
I'm going out to have a good time
While you wait for that rainy dayI never asked you to change your ways
Just understand the things that I do
I've been thinking that one of these days
You can come and sit here too
