# Gasoline

## Burn Halo

My life should have been better
Its getting hard to keep it all together
I know days like this will pass
Maybe I should've been a little different
Maybe you could've been more patient
Maybe we let it go too fast
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory
You know baby you were my desire
But then you went and stepped into the fire
I know it got pretty bad
I thought we could make a little music
You know I never really thought that we would lose it
Maybe we let it go too fast
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory, yeah
You checked out for a moment
Didn't think it was over
I gave you the best of me
Got my collection of photos
And that old box of letters
Gonna soak 'em up in gasoline

Down, down, down, down
Burning down, down, down, down
I'm burning down, down, down, down
Every last memory (Every fucking memory)
I'm burning down, down, down, down
I'm burning down, down, down, down (Every fucking memory)
I'm burning down, down
Every last memory (every last memory)

I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down every last memory
I'm burning down, down, every last memory
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
Every last memory
I'm burning down, down, down, down
I'm burning down, down, down, down
I'm burning down, down
I'm burning down every last memory
