

Hates the Party

Long Beard

alone in the dark,
is it more alone
than alone in the light
that keeps you up at nightthere's more than one reason
to hate the world spinningeveryone hates the party
everyone hates the party,
you say you love me
everyone hates the party
at home,
do you leave the blue screen on?
do you watch the dots
like everythingplease don't forget
you're something I listen to
when I'm not sleeping
fortune grows
where you lie the most,
and time says "today,
be afraid it's not the same,
today"
