

Collision

Faith No More

Collision, my mission
When the dawn breaks with a handshake
Relaxed and feeling great
Screeching, head on, head on, head on
I need it, head on, head on, head on
Screeching, head on, head on, head on
I need it, head on, head on, head on
All the day's plans
All the shaking hands
Beepers and suntans
Screeching, head on, head on, head on
I need it, head on, head on, head on
Screeching, head on, head on, head on
I need it, head on, head on, head on
Collision, my mission
Head on, head on, head on, head on
When the dawn breaks with a handshake
Head on, head on, head on
Relaxed and feeling great
Collision, my mission
Mission, mission
Head on, head on, head on
