

See Her Out

Francis and the Lights

[Intro: Francis and the Lights]

Just give me information

Give me information

Tell me everything

Come see me on the phone ring

Just give me the headphones; turn up everything

(Ooh, yeah)[Verse 1: Francis and the Lights]

If you see her out there

Climbing a wall

Trying to get away

Tell her she can't escape

Whole damn world is a cage

Whole damn world is a cage

[Chorus: Francis and the Lights]

If you see her out there

Behind the wheel

Driving getaway

Oh god, I hope she escapes

Whole damn world is a cage[Bridge: Francis and the Lights]

But that's just life

I lived it twice

I treat you right

The way you taught me

That's just life

I lived it twice

So I said goodnight

Don't say it softly[Chorus: Francis and the Lights]

If you see her out there

Behind the wheel

Driving getaway

Oh god, I hope she escapes

Whole damn world is a cage
