

Perfect

Jaicko

I nearly lost my mind
Tryna figure out a way
To make you understand
I can't go on another day
Or maybe I was wrong
Been confused and led astray
Please give me one more chance
Cause I can't take what's happening Have you ever lost someone?
Tryna take it back but the damage is done
Thought of losing you makes me feel so sad
How I'm gonna sleep when I feel this bad?
I know enough's enough
It's gonna be tough to get through this...I'll never be perfect
I'll never be cool
I'll always be nothing
Unless I'm with you
Cause you make me perfect
Tell me what can I do?
The pieces are missing
When I'm not with you You make me whole
Who-o-ole
(You make me) Who-o-ole
Who-o-ole
(You make me) I know that I deserve it
But have you really lost all faith?
You know inside that we're worth it
There's so much more for us to say
Or maybe I was lost
Or maybe I was just afraid
Would you please forgive me
And hold me back in your arms again Have you ever lost someone
Tryna take it back but the damage is done
Thought of losing you makes me feel so sad
How am I gonna sleep when I feel this bad
I know enough's enough
