

# I Am the War

## Sodom

I am the warNo emotions to take your life  
Confrontation with the dead inside  
Wasted thousand centuries  
Now fighting for the endless peaceAdrenaline control  
Forever fixed my soul  
Curse by my side  
The judgment in disguiseI am the war  
Never disarmed  
I am the war  
Within my heartI am the war  
Supreme command  
I am the war  
Living on the edge  
I am the warI smell the rats of mendacity  
Napalm for your nudity  
I practice what I preach, my god  
Dehydration of your bloodAdrenaline control  
Forever fixed my soul  
Curse by my side  
Judgment in disguiseI am the war  
Never disarmed  
I am the war  
Within my heartI am the war  
Supreme command  
I am the war  
Living on the edge  
I am the warI cannot build but I can destroy  
Insanity concealed  
All the structures have been lost  
Totally deceasedI am the war  
Never disarmed  
I am the war  
Within my heartI am the war  
Supreme command  
I am the war  
Living on the edgeInfected by our unnatural aggression  
Driven by abnormal death selection  
No antibodies that fixed my mind  
No teardrop dims my savage eyesAdrenaline control

Forever fixed my soul  
Curse by my side  
Judgment in disguise I am the war  
Never disarmed  
I am the war  
Within my heart I am the war  
Supreme command  
I am the war  
Living on the edge I am the war  
I am the war
