Opera

Youngstar

We wrote fairy tales Of how we'll live in castles Tight like Hansel and Gretel And grow old and settle In a town that we'll tighten With our marry day We gonna love like that Like everyday like every way Like can I stay at yours tonight? We can hold tight, love bite And share some soul We can pick and roll Lose control and let me take it Like how I let you break it Don't forget we could Get high on each other And serve time for it Through the night and back Into the morning, can't crack the habit So, you see I'm feening I'm needing some more And you got me grinning like it's Money that I'm winning No way is this ending 'Cause you got me feeling purer than thou You need to show me how you do this thing 'Cause you got me singing like I'll crown you king of this throne If you can take me home Like runs with no stripes It doesn't have to be tonight How's about early morning, I'm talking AM We can beat the dawn Or just chill through time barriers Can't help the whispers of I do But you see through my proper test Got me making game faces

In London we say lacing you say making sense

This shit's intense ya, I kinda [Incomprehensible] offence 'Cause you move me So I broke my role and I got freaky with it You chastise me with my own belt I ain't gonna lie, I felt the universe move You left me singing like opera Like Cleopatra or Madam Butterfly Yo it feels so good you brought tears To my eyes I was like Now, was that supposed to happen All that foot tappin' voice breakin' Now I'm carving Kamasutra diagrams, ya'll With the headboard Ignored the buzzer 4 times Got up hard telling lies Even surprised myself With my conniving ways I dived in like he meant survival Like he was christened H20 Like he could make the trees grow And the clouds spit snow He laid kisses on my chest Like his name was Zorro Had me saying, "Hell No" When he said he had to go I was hiding clothes And play fighting like children We were clashing our Titans Till weight we were losing I had Slum Village album on repeat We were knockin' boots to hip hop beats I even reached my maximum in my sleep Yo, he had me singing like Yo, he had me, he had me
