Big Hair / Lather Rinse Repeat

John Savage

She got big hair
She got big hair

And a heart's even bigger than her hair is
And her hair is the biggest in town
But I just want to be there
When she let that big hair down
She got big, big hair

People stop, and people stare
You think I mind, but I don't care
People stop, people stare
Don't ***
Can't help it, she got big hair
She got big, big, big, big, big, big, big hair
Big hair
