

Won't Tell

Babes In Toyland

I won't ever tell on you, ever see me do
I wait forever for you
Figure out your problem with me is you I won't be like you, ever see right through
I wait forever for you
Figure out your problem with me is you I won't ever tell on you, ever see right through
I wait forever for you
Figure out your problem with me is you You come running through
Figure out your problem with me is you
