In Fields Where We Lay

B*Witched

There's a green hill far away
In a land I know so well
And the sun it shone so bright
In the fields where once we did lay
In the fields where once we did layAs we walked that winding road
I remember oh so well
The times we spent together
In the fields where once we did lay
In the fields where once we did layHow we laughed and carved our names
And declared our love forever
On that old oak tree we found
In the fields where once we did lay
In the fields where once we did layThere's a green hill far away
In a land I know so well
And the sun it shone so bright
In the fields where once we did lay
In the fields where once we did lay
In the fields where once we did lay
