

Wanna Get Up With You

Gerald Levert

How can we get up with fresh start
Get up at the break of dawn
Closer, I need you by my side
I wanna get up with you, I wanna get up with you
Baby, how can I get up with you? Fun to see you here today
It's still the thrill from the first time I saw your face
Trust and thought to get over you
Time we spent, things you said
There was no unwanted damn or two What you done to me
Your perfume lingering
Your make love in my dreams
So then I waited waited, then I waited
Didn't get your information clearly here How can we get up with a fresh start
Get up at the break of dawn
Closer, I need you by my side
I wanna get up with you, I wanna get up with you
Baby, how can I get up with you? Girl, you're hot like a fire, yeah
Got me burning, can we turn this into something girl
This thing I got in you, yeah
Said it hit me, knocked me down, baby, can you tell me now
How can? How can we get up with a fresh start
Get up at the break of dawn
Closer, I need you by my side
I wanna get up with you, I wanna get up with you
Baby, how can I get up with you? Baby, I think that we should keep in touch
Maybe I called you, you call on me
Ain't trying to fall in love, baby
I ain't impressing you, just expressing to you my own Yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah
Gonna say, yeah, yeah, yeah, yeah, yeah
I wanna get up with you, I wanna get up with you
How can I get up with you? How can we get up with a fresh start
Get up at the break of dawn
Closer, I need you by my side
I wanna get up with you, I wanna get up with you
Baby, how can I get up with you? How can we get up with a fresh start
Get up at the break of dawn
Closer, I need you by my side
I wanna get up with you, I wanna get up with you

Baby, how can I get up with you?
