

Cannibal Holocaust

Necrophagia

In the heart of darkness, forgotten world lost
Primal existence, only tribal law
Human sacrifice, the nectar of gods Cannibal, cannibal
Cannibal holocaust The face of fear, taste of flesh
Defiled rites, impaled carcass
A death head silhouette Cannibal, cannibal
Cannibal holocaust Eaten alive, frenzied lust
Ripped to shreds, torn apart
Organs exposed, castration In the heart of darkness, forgotten world lost
Primal existence, only tribal law
Human sacrifice, the nectar of gods
