

# If You Could Make It Good

Brad

Whenever the sun comes out  
Whenever your skies are grey  
There's always a way up

A way into your heart today  
If you could make it good (x4)  
When I want to find out whether I have lost my way  
Well is it any wonder?

And this is what she had to say, "It's gonna be good if you can make it good."  
If you could make it good (x4)

If you can make it fly  
Once in the middle of the night with the fire burning bright the sun is coming up to me  
If you can fly
