Fire On The Horizon

Primal Fear

There was no warning, no sign of danger
We saw smoke in the sky and fear in their eyes
We felt that something terrible'ld come
Saw a field of fire, we're under the gunWe could not believe
And pursued the sceneryFire on the horizon
Fire on the horizonWe were encircled by machines never seen
Death on the horizon, they came out of the dawn
All forces in trouble, the nuclear weapons
Were everywhere seen, the state of emergencyFaith at the front
The invaders from beyondFire on the horizon
Fire on the horizon
