

# Loaded Gun

Lucy Spraggan

This town is like a circus  
if you're starting to feel nervous  
then we'll go and pet dogs on the high street.  
Pull the photo booth curtain  
Check if the bar is open  
if it isn't then we'll go and get ice-cream. We can eat sundaes because it is Sunday,  
and waste our change in the arcade  
We can get tattoos  
and maybe some seafood  
and then you might be feeling okay.  
We are loaded guns  
if you wanna go bang we can.  
We are loaded guns  
I know that you love to dance.  
Back and forth, close your eyes  
we can go all night cause  
We are loaded guns  
and if you go bang we can. We can drive out to the river  
share pork pies for dinner  
if we're lucky then we might see some wildlife. Talk about when we're older  
and sit on sofa  
and watch all the five films of Twilight.  
Sleep on the skylights  
Fireworks at midnight  
they say we're wasting our youth.  
Well, youth isn't sacred  
and time isn't wasted as long as I spend it with you.  
We are loaded guns  
if you wanna go bang we can.  
We are loaded guns  
I know that you love to dance.  
Back and forth, close your eyes  
we can go all night cause  
We are loaded guns  
and if you go bang we can. We sleep in tents when life's intense,  
stay close all night.  
Forget the world and all the people we don't like. (We are loaded guns  
We are loaded guns) We are loaded guns  
if you wanna go bang we can.

We are loaded guns  
I know that you love to dance.  
Back and forth, close your eyes we can go all night cause  
We are loaded guns  
and if you go bang we can.
