

# Cuts Like a Knife

[Bryan Adams](#)

So you say your new girlfriend's a little too friendly  
You caught her telling one more lie, one too many  
You say she won't love you right, she stays out so late at night  
Lately you've been thinking 'bout the time You could have been mine  
You could have been mine It wasn't very long ago you had my attention  
And what she did that turned your head, well, I won't mention  
I won't say I told you so but there's one thing you should know  
I was seeing hearts and Valentines You could have been mine  
You could have been mine That's the chances we take with the choices we make  
There's gonna be mistakes from time to time  
And you could have been mine Now you've got your bed all made so lay alone in it  
Don't even think about what we could've been for even one minute  
But I'd have been your Juliet, I never gave you one regret  
But don't you let that cross your troubled mind When you could have been mine  
You could have been mine That's the chances we take with the choices we make  
There's gonna be mistakes from time to time  
Oh, you could have been mine Could have been mine  
Could have been mine  
Could have been mine

...
