

# Spit and Rape

## Jack Off Jill

I'm in a circle, looking up above  
I'm turning purple as she smothers me  
I watch you thinking, faces changing shape  
How is she happy when she thinks of spit and rape I know who you are  
You left a big black scar  
I see there's no escape  
You'll know when Fucker you're going down  
Girl you're going down  
Fucker you're going down  
You and spit and rape  
Fucker you're going down  
Girl you're going down  
Fucker you're going down  
You have spit and raped I'll get you  
I'll get you  
I'll get you  
Just wait I know you've had your fun  
Did deeds and now you're done  
I see there's no escape  
You'll know when Fucker you're going down, girl you're going down, fucker you're going down,  
You and spit and rape  
Fucker you're going down, girl you're going down, fucker you're going down,  
You have spit and raped I'll get you  
I'll get you  
I'll get you  
Just wait I know who you are  
You left a big black scar  
I say there's no escape  
You know that God is going down  
God is going down  
God is going down,  
He and spit and rape  
God is going down  
God is going down  
Why don't you strike me down?  
You have spit and raped
