Flame

[Tinashe](#)

(Ooh, ooh...)
Cold in the night when I hold you close
(Ooh, ooh...)
Searching your eyes, but you're gone like a ghostAnd I say "baby, you can put it on me"
Cause I know I don't make it easy
My body hurts with every heart beat
Just say I'm not the only oneC'mom, tell me that you've still got the flame for me
And tell me that you've still want to stay, don't leave!
Even though I never given up in my heart
Even though a part, a part of me don't want, baby
Baby, tell me that you've still got the flame for me
And we can let it burn
Ooh, ooh, ooh, oohI payed the price for the wrongs I've done
It's all you can do when you love someoneAnd I say "baby, you can put it on me"
Cause I know I don't make it easy
My body hurts with every heart beat
Just say I'm not the only oneC'mom, tell me that you've still got the flame for me
And tell me that you've still want to stay, don't leave
Even though I never given up in my heart
Even though a part, a part of me don't want, baby
Baby, tell me that you've still got the flame for me
And we can let it burn
Ooh, ooh, ooh, oohAnd I know and I know I can't make you
I can't make you let go (don't let go)
And I don't and I don't and I don't blame you
Cause I hurt you before
Tell meC'mom, tell me that you've still got the flame for me
And tell me that you've still want to stay, don't leave
Even though I never given up in my heart
Even though a part, a part of me don't want, baby
Baby, tell me that you've still got the flame for me
And we can let it burn(Ooh, ooh...)
