Partners In Crime

Rupert Holmes

There's a sociallite, parasite, media satalite
We're the onle safe ones left you and I
But without you it's a bore
There's no fun breaking the law, anymore, anymore
My partner in crime, my partner in crime
Theres a monkey say monkey do
Empty head avenue
It's a straight and narrow road
It's a cold city of stone but you won't face it alone, anymore, anymore
My partner in crime

And I feel, we are, we must go on, I will stand with you
for ever more
As I feel, we are, we must go on, I will stand, with you, forever
Ever more
But without you it's a bore, theres no fun breaking the law
Anymore, anymore, my partner in crime, anymore anymore,my partner in crime
my partner in crime, my partner in crime
