

Champaign

Cee Lo Green

(Verse 1)

I see all the lonely people to my left and to my right
And we've all one common interest and that's to not be alone tonight

Oh I could use your lovin'

That is why I came

And an interest brings her over

But to ensure she feels the same

Oh champaign(Chorus)

Oh Why won't you mean everything that you say

Turn me on, set me free, (?) all the pain

When I'm with you, everything is okay

Champaign, champaign

Take me away(Verse 2)

Her beauty is bubbling over as we sit and socialize

And accidentally some gets on me, but there is no need to apologize

Oh, darling, please behave yourself or you will be the blame

It's not complicated

It's rather easy to explain

Oh, ChampaignChorusSaid baby, baby

Are you having fun?

Aw darling, darling

I think I found the one

Oh Oh Oh Oh

Baby all i want to do

is celebrate us

Here's a toast to me and you
