

Aya

Black Rebel Motorcycle Club

She's a reckless lover with her blood stained hands
 'Round the neck of her helpless man
She's the midnight silence, an outbound train
 She's glory of fallen names
 Aya, Aya, we're alone
And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore
She's a patient killer, a timeless hand
 The choke of the falling sands
She's a proven saint with a witches tongue
 The gods of war at her command
 Sweet Aya, bring it on
I wanna kiss you till they're gone
 Sweet Aya, bring it on
I wanna kiss you till they're gone
 Till they're all gone
 Aya, Aya, we're alone
And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore
She's the broken shadows on the fallen walls
 With no master there's no call
She's the faithful silence that visits all
 With no mercy, no remorse
 Aya, Aya, we're alone
And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore
 Sweet Aya, bring it on
I wanna kiss you till they're gone
 Sweet Aya, bring it on
I wanna kiss you till they're gone
 Till they're all gone
 Aya, Aya, we're alone
And there's no room here anymore
 Aya, Aya, we're alone
And there's no room here anymore
 Aya, Aya, we're alone

There's no room here anymore
Aya, Aya, we're alone
