

Happiness and Misery

[Jonny Lang](#)

A thousand people here but I'm alone
My only friend is my dad's radio
Seventeen feels like I'm thirty-four
How do I get myself up off the floor
I need a cure Happiness and misery
I'm up and down so confused
I want to scream
But there's nobody listening Stop the war inside of me
Pull the plug, kill the lights
I can't break free
It's happiness or misery I wish the clouds would all come out today
Send the rain and wash it all away
Am I going crazy I don't know
I wonder will anyone miss me if I go Happiness and misery
I'm up and down so confused
I want to scream
But there's nobody listening Stop the war inside of me
Pull the plug, kill the lights
I can't break free
It's happiness or misery Happiness and misery
I'm up and down so confused
I want to scream Stop the war inside of me
Pull the plug, kill the lights
I can't break free
Happiness or misery
