

# Whiskey Trip

## Gary Stewart

I can almost see me now  
In Acapulco  
I can almost feel the breeze  
That makes the palm trees swayThe motion of the ocean  
In the bottle  
Says loving her is just  
A sip awayTaking me a whiskey trip  
Loving her with every sip  
I'm just like a sailing ship  
Awaiting for the winds to blowWhiskey, you're a friend of mine  
You can blow away my mind  
To some other place and time  
Taking me a whiskey tripI can almost see her now  
Here beside me  
I can almost smell the perfume  
Drifting from her hairAnd living with this feeling  
Of wanting her  
One more drink and I know  
I'll be thereTaking me a whiskey trip  
Loving her with every sip  
I'm just like a sailing ship  
Waiting for the winds to blowWhiskey, you're a friend of mine  
You can blow away my mind  
To some other place and time  
Taking me a whiskey tripTaking me a whiskey trip  
Loving her with every sip  
I'm just like a sailing ship
