Shaft

Chosen Few

Who am I?
I am I
Why can't I get it straight no?
Why can't I see it straight, yeah?
We can't let you
We can't let you go
Why can't I get it straight no?
We can't let you
We can't let you go
Who are you?
You are me
Shaft! Shaft!
Shaft! Shaft!
I take a look, a look around gas limited
I take a look around
I tell myself I live again
I take a look, a look around gas limited
I take a look around
I tell myself I live again
Why can't I get it straight no?
Why can't I see it straight, yeah?
We can't let you
We can't let you go
Why can't I get it straight no?
Why can't I see it straight, yeah?
We can't let you
We can't let you go

Shaft!
Up until this day
I take a look, a look around gas limited
Up until this day
I take look around, I tell myself I live again
Up until this day
I take a look, a look around gas limited
Up until this day
Shaft! Shaft! Shaft!
Shaft! Shaft! Shaft!
Where's Lorena when we need her?

Why can't I get it straight no?
Why can't I see it straight, yeah?
We can't let you
We can't let you go
Why can't I get it straight no?
Why can't I see it straight, yeah?
We can't let you
We can't let you go
Why can't I get it straight no?
Why can't I see it straight, yeah?
Why can't I get it straight no?
Why can't I see it straight, yeah?
Why can't I get it straight no?
Why can't I see it straight, yeah?
Why can't I get it straight no?
Why can't I see it straight, yeah?
