

# Never Meant to Happen

## Grafton Ash

Slow down, weâ€™re moving too fast  
Who could have seen this happening  
Slow down, if this is to last  
Itâ€™s hard to believe youâ€™re all that I have

This was never meant to happen, never meant to happen  
This was never meant to happen, never meant toâ€¦

So turn out the lights  
Give a little, hold me tight  
Some how this feels so right  
But this was never meant to happen  
Never meant to happen, no

Reach out, donâ€™t drown in your doubts  
If itâ€™s what you want, then donâ€™t wear it out

This was never meant to happen, never meant toâ€¦

So turn out the lights  
Give a little, hold me tight  
Some how this feels so right  
But this was never meant to happen  
Never meant to happen, no

Look whatâ€™s become, look where we are  
we both deeper in this than we were at the start  
You get what you give, apart from the heart  
no matter how hard, you canâ€™t decide who gets, that, part

So turn out the lights  
Give a little, hold me tight  
Some how this feels so right  
But this was never meant to happen  
Never meant to happen
