

# Like a Lover, Like a Song

## April Wine

(myles goodwyn)

Published by goody two tunes, inc. - bmi I don't wanna talk about it anymore  
When there's nothin' goin' on, and somethin' should be done  
Cause we believed for nothin' it seems  
And now it's ended broken-hearted  
And as anyone can see, there was no way we'd agree And we can get there if we try  
And I wanna live if I have to die  
And it'll come so sweet and softly, like a song  
And really turn me on, like a lover like a song  
Really turn me on, turn me on It seems there's somethin' deep inside of you  
And I can tell that you've been lonely  
And you've had hard times too  
Cause we believed for nothin', it seems  
And now it's shattered all apart, like a broken heart  
It's the end, it's a start And we can get there if we try  
And I wanna live if I have to die  
And it'll come so sweet and softly, like a song  
And really turn me on, like a lover like a song  
Really turn me on, really turn me on And there's somethin' inside that's been burnin'  
And there's somethin' inside I've been learnin'  
And I can't hide cause it's all over me  
And deep inside of you, inside of you  
Deep inside of you, inside of you I don't wanna talk about it anymore  
When there's nothin' goin' on  
And somethin' should be done  
Cause we believed for nothin', it seems  
And now it's ended broken-hearted  
And as anyone can see, there was no way we'd agree And we can get there if we try  
And I wanna live if I have to die  
And here's a chance for you to see  
What this pain's been doin' to me  
And I wanna lose it everyone  
And have a heartache on the run  
And we can get there if we try  
And I wanna live if I have to die  
If I have to die, if I have to die
